

# Translational Aspects related to Technology and Artificial Intelligence in Medicine

Thursday, April 4, 2019, Inselspital Bern, Friedbühl Turnhalle

# Program

14.30 – 15.00 **Registration**

15.00

## **Welcome**

Dr. Fried-Michael Dahlweid  
Chief Technology + Innovation Officer, Insel Gruppe,  
University Hospital, IDSC, Bern

15.05

## **Exponential Technologies + Global HEALTH 3.0 Disruption = NextGen Interdisciplinary (Medical + Engineering) Translation**

Prof. Dr. rer. medic. Michael Friebe  
Chair Catheter Technologies + Image Guided Therapies,  
Faculty of Electrical Engineering and Information Technology  
(FEIT), Otto von Guericke University, Magdeburg, Germany

15.50

## **How big industry looks at translational efforts related to AI in healthcare**

Dr. Fried-Michael Dahlweid  
Chief Technology + Innovation Officer, Insel Gruppe,  
University Hospital, IDSC, Bern

16.10

## **Experiences from both worlds: Research versus start up related to AI in healthcare**

Prof. Dr. Raphael Sznitman  
Group Head Ophthalmic Technology Laboratory,  
ARTORG Center, University of Bern

16.30

**Coffee Break**

- 16.50**            **What are the educational needs to foster the uptake related to AI in healthcare?**  
Prof. Dr. Jürgen Burger  
Director of School for Translation and Entrepreneurship in  
Medicine, sitem-insel AG, Bern
- 17.10**            **A young researcher's perspective:  
What to expect from bench to bed translation**  
Benjamin Ellenberger  
PhD-Student, Insel Gruppe, University Hospital, IDSC, Bern
- 17.30**            **What are the most promising research trends when it comes to potential commercial usefulness related to AI in healthcare?**  
Prof. Dr. Mauricio Reyes  
Head of Healthcare Imaging AI, Insel Gruppe,  
University Hospital, IDSC, Bern
- 17.50**            **Closing**  
Dr. Fried-Michael Dahlweid

Insel Gruppe  
 Direktion Technologie und Innovation  
 CH-3010 Bern
